

Millennium Stadium, Cardiff.

# Ideas at work.

Essential services for business, delivered with energy.

**With a crowd capacity of 74,500 it's the home of Welsh rugby, and Welsh football. It has 113 hospitality areas, 22 bars\*, 7 restaurants and a fully retractable roof. But the stadium didn't have efficient lighting – the kind that can deliver 66% more light with a 49% saving in energy costs.**

When you draw massive crowds, you need well-lit spaces. That's essential for health and safety, especially spaces like car parks and operational areas. But lighting accounts for a major part of energy bills in almost every business. That's why the Millennium Stadium turned to SSE Enterprise for a lighting solution that was both robust and economical. We've installed thousands of bespoke LED lights – raising light levels from 60 to 100 lux and reducing energy costs. These bulbs last much longer than typical 'low energy' compact fluorescents, and save time, hassle and cost in maintenance too.

\* From which, during a Wales vs France rugby match, the crowd consumed 77,184 pints of beer.

**The best teams at the Millennium Stadium have talent, experience and an incredible work rate. Some of them even wear hi-vis jackets and PPE.**

SSE Enterprise is no ordinary contractor. For a start, we're part of one of the UK's leading, longest-established energy companies. (The one that's also the UK's biggest 'living wage' employer.)

The care we have for our own teams starts with safety. But it also extends to your staff and your customers. When you're dealing with electricity and gas, nothing matters more than safety.

**The long game**

For the Millennium Stadium, we're proud to provide essential services:

- Energy-saving lighting
- Security lighting / car park lighting
- Electrical refurbishment / upgrade
- Air conditioning and 'fresh air' systems
- Building works (walls / ceilings) for media centre

Risk management is a key part of any project. But, these days, cost control

is also essential for all our customers. Within SSE Enterprise we have market-leading expertise in energy management. We have the know-how to deliver – not just quick fixes – but also strategic initiatives which deliver long-term savings.

**Flexibility and service**

Our customers benefit from the depth of our squad. Locally and nationally, we have the resources to make any project happen – big or small. And, no matter how specialist your needs – high voltage, heat, data, fibre – you can be sure SSE Enterprise has the right players for your challenges.

That's why major venues turn to us for sound advice.

Our teams work smart and work hard. But we also get to grips with your real challenges.
